Eco Plus T-Style Mufflers

Best in its class! The EcoPlus muffler line is 100% North American made, delivering effective sound control and premium quality. The double wrapped body alongside the interlocked seams reinforces the integrity of the muffler, preventing an inferior "oil-canning" effect. True to size, most EcoPlus mufflers feature a smooth inlet and outlet diameter without any expansions or reductions. The fully welded necks provide additional reinforcement, preventing nasty exhaust leaks from developing.

- Double Wrapped Body with Interlocked Seams
- Optimal Two or Three Internal Baffle Design
- Precision Fitment & Installer Friendly Design
- Available in Multiple Configurations & Diameters
- Reinforced Welded Necks
